# Personal Financial Planning

## Books to be used:

*The Ultimate Financial Plan* by Jim Stovall and Tim Maurer (UFP)

*Millionaire Teacher* by Andrew Hallam (MT)

*The Elements of Investing* by Charles Ellis (EOI)

## Supplemental reading and websites:

[www.morningstar.com](http://www.morningstar.com), [www.marketwatch.com](http://www.marketwatch.com), [www.gurufocus.com](http://www.gurufocus.com), *The Wall Street Journal*, handouts, articles and videos.

## Course objectives:

To gain a broad understanding of personal financial planning with an emphasis on practical application in the students' lives. This course will also be useful to those who want to pursue careers in financial planning. Course will focus on integral personal financial planning topics with emphasis on investments. Specifically, topics to be addressed include the following: the value of financial planning, understanding money, behavioral finance, risk management, retirement accounts, asset allocation, the panoply of investment choices, learning important factors for individual stock selection, and considerations when choosing an investment manager and financial advisor.

## Grades:

20% of grade: Participation, based on deliberate, thoughtful participation. It's quality, not quantity. Participation involves attending, actively engaging in discussions and providing value-added input.

20% of grade: Projects throughout the quarter.

60% of grade: Developing your own personal financial plan addressing the topics covered during the course.
