LEADING WITH CONFIDENCE

Sara Brown ('99, EMBA '02)

Executive Director of College Business Operations,
University of Houston

As an early-career professional, Sara Brown discovered a transformative new perspective on leadership and the workplace through the Bauer Executive MBA Program. Surrounded by a diverse cohort of engineers, architects, accountants and c-suite executives, she honed critical leadership skills and developed a personal foundation of mindset, values and ethics built through consistency and dedication.

After earning her degree, Brown leveraged the program's lessons to propel her career forward. Today, as an executive director of business operations, she confidently navigates complex challenges, equipped with the independence and expertise to lead with impact.

“

*The value of the program is not that it taught me what to think — it taught me how to think. There are new challenges in my environment every day, and the methodology that I was taught was so palatable that I could easily take those skills into the workplace, and **obstacles became opportunities.***

”
